Education

Bachelor of Technology (B.Tech) – Computer Science and Engineering
Sreyas Institute Of Engineering Technology, Nagole, Hyderabad, Telangana;   2022-2026
CGPA:7.11

Higher Secondary Education
Alphores Junior College, Mancherial, Telangana;   2020-2022
Percertage:62.4%

Secondary Education
Dr.Radha Krishnan High School, Mancherial, Telangana;   2020
CGPA:8.8

Professional Skills

- **Frontend Skills:** HTML, CSS, JS.
- **Backend Skills:** J2SE/JavaSE, J2EE/JavaEE, Spring Boot.
- **Database Skills:** SQL(Oracle).
- **Tools:** Git, Eclipse, VS Code, IntelliJ IDEA.

Projects

NomNow (GitHub Link)
Technologies used: Java, Spring Boot, Oracle
- Developed a scalable RESTful API for a food ordering platform using Spring Boot.
- Designed APIs for restaurant management, including menu CRUD operations, order tracking, and role-based access (user/admin).
- Used Postman for API testing and documentation to streamline frontend-backend integration.

Grand-Aura Hotel (GitHub Link)
Hotel management system for automating room reservations and billing processes using JAVA & MySQL
- Developed a comprehensive Hotel Management System using Java for back-end logic and MySQL for data storage, ensuring data integrity and efficient functionality.
- Defined key features such as room reservations, guest management, and billing processes through meticulous requirements gathering.

Capital-Root Bank (GitHub Link)
Comprehensive banking system for account and transaction management using JAVA & MySQL
- Designed and implemented a Banking System using Java and MySQL (via JDBC), enabling secure account management, user authentication, and transaction processing.
- Developed key functionalities such as user registration, login, debit, credit, fund transfers, and balance inquiries, with a user-friendly console interface.

Certifications

- Java Programming Certificate-Geeks For Geeks
- Frontend Development – One Roadmap Skill Certification
